## Aristotle's *Meteorologica*: Meteorology Then and Now

ANASTASIOS A. TSONIS (AUTHOR), CHRISTOS S. ZEREFOS (EDITOR)

This book concentrates on the meteorological aspects of Aristotle's work published as *Meteorologica* books A-D, and on how they compare now with our understanding of meteorology and climate change.

*Aristotle's Μετεωρολογικά* concentrates on the meteorological aspects of Aristotle's work published as *Meteorologica* (Μετεωρολογικά or Meteorology) books A-D, and on how they compare now with our understanding of meteorology and climate change. In other words, how well did Aristotle fair when he tried to explain weather 2,300 years ago when there was only logic, eye observation, and past experience, with only primitive instrumentation and a few personalized measurements? While there are scientific issues behind Aristotle's writings, this book is written for the non-specialist. The book uses simple examples to present its case, which will be easily followed by general readers.

### CONTRIBUTORS TO THIS VOLUME

*Anastasios Tsonis* is an Emeritus Distinguished Professor in the Department of Mathematical Sciences at the University of Wisconsin-Milwaukee (UWM) and an Adjunct Research Scientist at the Hydrologic Research Center in San Diego, CA. ;

*Christos Zerefos* is Head of the Research Centre for Atmospheric Physics and Climatology, Academy of Athens, Professor of Atmospheric Physics at the Universities of Athens and Thessaloniki, and Visiting Professor at the Universities of Boston, Minnesota and Oslo.
